

Ready-to-drink brews to grab and go

GREAT ENERGY REVIVAL FOR ACTIVE LIFESTYLES

More active adults are looking for convenient drinks that deliver a nutritional boost — right when they need it.

So it's not surprising that the market for functional, ready-to-drink (RTD) tea and coffee is tipped for strong year-on-year growth up to 2026. We've designed two new concepts to help you capture your share of this opportunity.

- A cold brew coffee that delivers an extra energy boost before a workout or in the morning.
- A yuzu-flavoured black tea for replenishing energy stores mid-afternoon.

Both drinks contain Lacprodan MicelPure®, a micellar casein isolate drawn from fresh Danish milk by gentle membrane filtration technology. That way, the protein remains in its purest form with minimal denaturation — and the nutritional benefits stay locked in.

Lacprodan MicelPure® contains 86% native protein.

58%

of consumers choose foods and beverages that **boost energy**

57%

of consumers choose foods and beverages that **support strong and healthy bones**

Flexible nutrition from a natural source

High in native proteins and calcium, Lacprodan MicelPure® not only delivers a burst of nutrition with a mild milky taste. It's also outstandingly stable when subject to high temperature processes, keeping viscosity low during processing and shelf life.

Exactly the flexibility you need when meeting consumer preferences for an energising grab-and-go drink with a great taste and texture.

Experience the difference in our RTD coffee and tea with Lacprodan MicelPure®.

Cold-brew coffee RTD

Functional ingredients added

Lacprodan MicelPure®
Cold-brew coffee extract

Functional positioning

Energy for an active lifestyle

Content per 330ml serving

20g protein
560mg calcium
300mg caffeine
Low fat
Low sugar

Black tea with yuzu RTD

Functional ingredients added

Lacprodan MicelPure®
Tea extract

Functional positioning

Afternoon pick-me-up

Content per 330ml serving

15g protein
440mg calcium
Low fat
Low sugar

Opportunities for nutrition claims*

High in protein

High in calcium

Low in sugar and fat
